Garden Shaheen

At **Shaheen Garden**, we believe plants can brighten up any place. Whether it's a busy expo or a peaceful book fair, a bit of greenery makes booths look fresh, warm, and welcoming.

We help brands decorate their stalls with plants, flowers, and beautiful green setups that match their style. From simple potted plants to full floral themes, we take care of everything – **design, delivery, setup, and support.**

This photo gallery shows some of our work from different events. Each picture reflects the love and care we put into making stalls stand out. If you've ever seen a booth that felt calm and full of life, there's a good chance it was done by **Shaheen Garden.**

What We Offer:

- Fresh indoor & outdoor plants
- Green walls & vertical gardens
- Flower decorations for stalls
- Themed plant setups
- On-site support during events

Over the years, we've been proud to provide plant decoration and landscaping services at some of the biggest expos in Saudi Arabia. From LEAP Tech Conference to the Saudi Food Expo, and from the Beautyworld exhibition to The Big 5 Construct Saudi – we've been trusted by many exhibitors to bring nature into their event spaces. Our setups have added color, freshness, and elegance to stalls in industries as diverse as real estate, construction, fashion, health, and technology.

our **clients**

"We're proud to have earned the trust of leading names from around the world and across the Kingdom. Our clients include Google, ServiceNow, Zoom, Deloitte, Haboob, TASNEE (National Industrialization Company), Oracle, SABIC, NEOM, AWS, AlJazmaz, NHC, STC, SAP, ALO, King Salman Park, ROSHN Group, HPE Aruba Networking, Salik, United Feeds, and Al Rajhi Bank. Each of these names represents our journey of dedication, quality, and green excellence. From global tech firms to local giants, we bring beauty and life to every space we touch."

Our work is rooted in integrity, reliability, and a strong commitment to creating eco-friendly environments — even within the fast-paced, industrial world. We believe that nature should not be excluded from innovation, but rather, it should be integrated into it. That's why we consistently deliver plant-based landscaping solutions that not only enhance visual appeal but also promote sustainability and calm in busy commercial spaces.

Our team takes pride in being dependable partners to brands, ensuring every project is handled with honesty, consistency, and care. By bringing greenery into booths, offices, and expos, we aim to inspire a shift — one where industries embrace nature, and every space reflects balance, wellness, and long-term responsibility to the planet.
